

Hello Students, in ITAP 1000

The College has closed the school to on ground classes until further notice. I have made a plan for you to still learn and to get a good grade. We will just have to use the Internet instead of the classroom.

I will deliver needed info by PDFs to <http://easiestlanguage.info/it.html> either click this link or go to that website then scroll down to the bottom and click on Important Technology

You will find new links at the bottom that new page to 1000 INFO will have information for the 1000 class. When you click on your class link you will have the information you need to continue your class.

1000 Class I will be putting up information for you weekly so you have what you need. See below.

I have been told the library will remain open so you can use the computer lab on the third floor if you can't use your home computer.

But should you have difficulties you can reach me at [profwa@gmail.com](mailto:profwa@gmail.com) As always I am glad to be of help. We can get thru (modern spelling) this difficulty with you learning and you getting hopefully a good grade. And think of the time and gas you wave by not having to drive to class.

Best Wishes

Wesley Arnold

I did go over the first spreadsheet practice last week but said I would go over it again as some of you are very new to Excel so take a look at the PDF file SPREADSHEET FIRST PRACTICE.

I will explain more next week.

If you want to get ahead of things take a look at Spreadsheet 2nd practice.pdf
